**DRUGS mean your
END...**

Never START

To all the Parents

One of your children may be exposed to addiction state. Notice the following conditions immediately: -

- * Deep Body Emaciation.
- * Strong Loss Of Appetite.
- * Difficulty in Breathing and Fatigue.
- * Strong Nervous Disturbance & Affection.
- * Long home Absence.
- * Much money Demand.
- * Isolation.
- * Long time sleeping.
- * Marks & Traces of abusing on body.

The time you see the above symptoms in your child, immediately contact the concerned Addiction Treatment unit for treatment and get him well back to the society .

Advice To All Families

Incase you discover that one of your child is a drug addict How to deal with him?

Be friendly, understanding and empathetic

An addict is a sick person and needs humanistic treatment

Find out the causes of his addiction and circumstances that led to it

Find the nature and method of drug he was using

Find out the level of addiction

Take him to a psychiatric for appropriate treatment

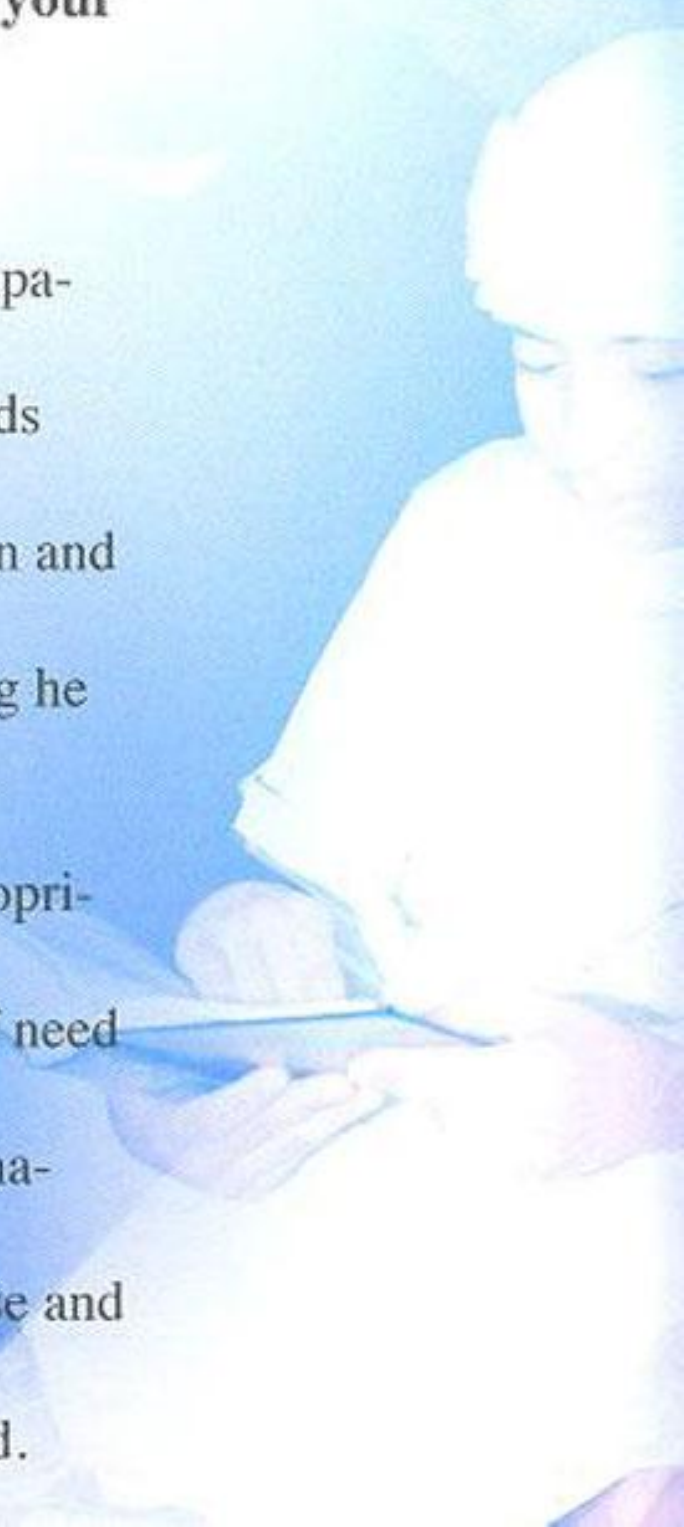

Ask for police assistance incase of need

Do not forget

Drug enforcement is a religion, a national and humanitarian duty

No penalty for reporting drug abuse and seeking treatment

Complete confidentiality is assured.
